UTILITY DESIGNATION AND MAPPING

 **CERTIFIED
SMALL BUSINESS**

Call us at 757-873-1762

Michael Surveying & Mapping P.C. can accurately designate and map existing underground utilities during the early design phase, helping YOU keep your crew safe, avoid costly delays and the unnecessary expenses of re-designs. Using Radiodetection Ltd., the world leader in the design and manufacturing of under-ground utility locating equipment, our professionally trained staff can provide you with:

- Records Research
- Utility Locating / Designating
- Land Surveying
- Utility Mapping

Contact us to mark the location of underground utilities before dig, drill or design your next project.
